

## Councillor Paul Stewart

Married with two children I have represented many of you on Sunderland City Council since May 1990, when I was first elected.

I can honestly say it has been a privilege to represent our community over these years. I am proud to have received so much support from the local community when standing for election, representing both Redhill

Labour Party and Sunderland Cooperative Party in my most recent election as your local councillor.

Currently Chair of SACRE and vice chair of the Corporate Parenting Board in addition to being Lead Project member for developing the Co-operative framework adopted by the City Council. I am also chair of governors at Willowfields Primary School.

It is therefore not surprising to learn that I have a very real interest, professionally, politically and most importantly as a parent, in the education of the children in our community.

I was born and have spent almost all my life living in our community, thus having a real personal interest in fighting for improvements to the environment in which you and I both live. Through holding regular surgeries throughout our community I am always accessible to those who require help and assistance.

**I will promise to continue to fight to make a difference for our community while serving as your representative on the city council.**

Many Thanks

*Paul*
